

BOYS & GIRLS CLUB
of Fitchburg and Leominster

Athletics March Report

During the first couple weeks of March our Junior's and Teen's programs were able to enjoy some good weather days outside playing Football, Basketball, Capture the Flag, Four Square, and Kickball. The Juniors' program also enjoyed a variety of gym games as well such as Ultimate soccer, German baseball, Fruit Salad, and one-sided Capture the flag. Football was the most popular sport between each age group.

Unfortunately, our basketball leagues had to be cut short due to pandemic. There were a few more weeks of regular league play before the playoffs would have started before we had to close. Our Junior Basketball League standings ended with Bucks in first, followed by the Bulls, then Lakers, then Nuggets, and then the Celtics. Our Teen Basketball League ended with the same time frame as the Juniors. The Knicks were in first place, followed by Raptors and then the Cavaliers and Mavericks were tied for 3rd

Rentals had come to a close due to the pandemic, an expected loss of \$6,000 in revenue. The Red Cross is still renting our space as they have incoming signups for classes, no more than 5 people including the instructor.

As the pandemic became more and more apparent to us all and we had to shut our doors, and moved to virtual programming. I began training Staff on how to use ZOOM and posting all our virtual programs to Facebook as well as my own workout/yoga videos every Tuesday and Thursday. I have also been updating our followers on our new COVID-19 policies and how we have been transitioning since the CDC has been releasing them. I have been rearranging the website to fit the new COVID-19 policies, safety policies, and consent forms. Keeping our Club families up to date on the pandemic and how we as a Club were transitioning with everyone else are my biggest priority.
